

## Preliminary Program (on 16 November)

### Monday 18 March -

- 09.00 Opening of the welcome desk
- 09.30 Welcome Address
- 09.45 Dimension reduction of the input parameter space for potentially vector valued functions  
Clémentine Prieur, Grenoble Alpes University, Jean Kuntzmann Lab., Inria project/team AIRSEA  
[Abstract](#)
- 10.45 Coffee break
- 11.00 PhD 1
- 11.30 PhD 2
- 12.00 PhD 3
- 12.30 Lunch
- 14.00 PhD 4
- 14.30 PhD 5
- 15.00 Poster Blitz 1
- 15.30 Coffee break
- 16.00 PhD 6
- 16.30 PhD 7
- 17.00 Poster Blitz 2
- 17.30 Poster Session

### Tuesday 19 March

- 08.30 Opening of the welcome desk
- 09.00 Course: A short introduction to data assimilation (1/2)  
Emmanuel Cosme, Université Grenoble Alpes  
[Abstract](#)
- 10.30 Coffee break

- 11.00 Rational Becker-Weispfenning interpolation  
Henry Wynn  
[Abstract](#)
- 11.45 Privacy sets revisited  
Werner Müller, Johannes Kepler University Linz  
[Abstract](#)
- 12.30 Lunch
- 14.00 Measures minimizing regularized dispersion  
Anatoli Zhiglavsky, Cardiff University  
[Abstract](#)
- 14.45 Title to come  
Maria Joao Rendas, CNRS  
*Abstract to come*
- 15.30 Model-Based Robust Design in Industry  
Ron Bates, Rolls-Royce  
[Abstract](#)
- 16.15 Coffee break
- 16.45 Tumour characterization from Positron Emission Tomography imaging data  
Eric Wolsztynski, University College Cork  
[Abstract](#)
- 17.30 Restricting ambitions in global multi-objective optimization of costly functions  
Rodolphe Leriche, École des Mines de Saint-Etienne  
[Abstract](#)
- 20.00 Conference Dinner

## Wednesday 20 March

- 8.30 Opening of the welcome desk
- 09.00 Course: A short introduction to data assimilation (2/2)  
Emmanuel Cosme, Université Grenoble Alpes  
[Abstract](#)
- 10.30 Coffee break
- 11.00 Synthesis of geological images using deep learning techniques  
Ahmed Elsheikh, Heriot-Watt University  
[Abstract](#)
- 11.45 Feature selection, lifespan prediction in Hydrocracking  
Benoit Celse, IFPEN  
*Abstract to come*
- 12.00 Title to come

Julia Charrier, Université d'Aix-Marseille  
*Abstract to come*

12.45 Efficient Topological and morphological characterization of 3D complex microstructures  
Maxime Moreau, IFPEN  
[Abstract](#)

13.00 Lunch

14.00 Space-filling designs based on Rényi entropy  
Astrid Jourdan, EISTI  
[Abstract](#)

14.45 Title to come  
Maxime Jean, IFPEN  
*Abstract to come*

15.00 Detecting and exploiting the low-effective dimension of multivariate problems using gradient information  
Olivier Zahm, INRIA  
[Abstract](#)

15.45 Title to come  
Martin Guiton, IFPEN  
*Abstract to come*

16.00 Cloture by Hervé Monod, INRA – GDR MASCOT-NUM

16.30 Closing remarks

-oOo-
